The Strength of Premier Tech Aqua

For more than 90 years, Premier Tech has been building its know-how and reputation on the diversity and technological expertise of its 3,600 team members located all around the world. As one of Premier Tech's business units for over 20 years, Premier Tech Aqua (PTA) has become an international leader in the field of onsite and decentralized wastewater treatment technologies for the residential, commercial, community and industrial sectors. With over 113,000 installations, each coupled with a rigorous inspection, maintenance and documented follow-up program performed by a large network of partners, PTA is undoubtedly one of the leaders of its industry.

PTA builds on innovation, creation and collaboration with local partners to make better use of shared resources and add value to the available services in keeping with environmental protection.

Active in North America, Europe and Asia, PTA is proud of the quality, performance and reliability of the solutions it offers.

AERZEN CANADA

We introduced Europe's first rotary lobe blower back in 1868. Since then we have become a global player. There are reasons we have also remained a family firm. Reliability, know-how, efficient service – these are virtues that helped ensure our success on the world market over the years. Our goal is to redefine quality. We're glad you've taken an interest in our company. Read on to learn more about AERZEN and its history – **Expect Performance!**
